Foreword

Foundation of Our Goal Seeking

We, the GOAL SEEKERS, must realize certain basic GOALS if our democratic form of government is to continue. Stability is not a characteristic of our society. The democratic idea is flexible. Changes are needed. There must be a continuous flow of new ideas to provide nourishment and cultivation for the constantly evolving social order. Some institution must be prepared to develop new ideas, understanding, and appreciations.

Since society attempts to direct and facilitate, by means of a controlled environment, the process of individual development along lines considered wholesome for society and the individual, the school must recognize and accept certain basic objectives. Thus, the GOALS of the schools and our democratic society are duplicates.

The young adults of the WORCESTER FAMILY recognize the need to satisfy this drive. Consequently, the realizations of these basic GOALS is the bedrock of profitable democratic living.

Dedication

Our Parents

To you, our Mothers and Fathers, whose interest has been in the improvement of our lives, whose love and encouragement have been inspiration, and whose never ending sacrifices have made possible these many years of education, we reverently and respectfully dedicate the 1962 INDIAN to you.

We hope that this tribute, you so rightly deserve, will show how highly we regard you.

Class of 1962

Class History

Twelve years ago, in elementary schools all over the county, we, the class of 1962, began our formal education. It was a brand new experience, but we gradually found ourselves involved in the routines of public school life.

In September, 1956, we entered another phase of education by entering Worcester High School. We hailed from Whaleyville, St. James, Berlin, Pocomoke City, Gridletree, Snow Hill and Newark. Having been grounded in the basic subjects in different areas, now we were to continue our education together. We were large in number, so from necessity, we were divided into five sections of the seventh grade. Our homeroom teachers were Mrs. Bevens, Mrs. Birckhead, Mrs. McKinley, Mrs. A. C. Taylor and Miss Julia Wilson. We are in our youth, as are the present seventh graders, very active physically.

In September of 1957, we returned to find ourselves a step further, the eighth grade, we were still large in number and required five sections. That year, Mary Wilson made all A's. Our chest expanded 10 fold over her achievement. Also Betty Gardner became a charter member of the newly organized Future Teachers of America. This organization grew and is at present, one of the basic and highly organized clubs in our school. Ernest Bishop, the class-orator, was constently selected for assembly because of his interpretation of the poem "The Prodigal Son" by James W. Johnson.

As our ninth year began, we began to think more seriously of graduation. We selected our program of study for the next four years. This school year Milton Randolph, Norman Purnell, Telia Fuller, Kenneth White, Ronald Mitchell, and Ernest Bishop began to exhibit great skills on the basketball court. The Vo.-Ag. boys put on one of the greatest farm shows we had seen. Our Home Ec. girls showed unusual ability in sewing in the 1st of the Annual Spring Exhibits. 9-C, under Mrs. E. E. Briddell, also undertook with great pride, a formal dance. This was the first of its kind because it was given primarily for the junior high school - 7-9.

In the tenth grade, work was getting harder and time was getting near to the end. Mary Wilson was elected to the National Honor Society. Betty Gardner rose from the ranks to become a prominent member of the Student Council. Betty represented our school at the Md. Association of Student Councils. This conference was held at - Frostburg State Teachers College.

Juniors at last! Since 1956, we had looked forward to sponsoring the Prom. With all of our difficulties, we were successful in presenting an Oriental Garden setting. This was the first time we began to think of ourselves as being one large class. We selected our class officers together. There were President Ernest Bishop, Vice President Mary Wilson, Secretary Rose Lee Bratten, Treasurer Paul Marshall. Our Principal, Mr. McDowell was kind enough to give us Mrs. E. E. Briddell, Mrs. E. Jackson and Mr. Wm. Rouse as our class advisors.

Our Goal Establisher

MR. JOHN A. McDOWELL,
Principal

MRS. HATTIE G. HAMILTON

Our Vice Principal

To the members of the 1962 graduation class:

Thank you for the opportunity to extend greetings and to formally congratulate you upon publication of the 1962 Indian. Congratulations also upon your theme, "GOAL SEEKERS."

There is evidence here that you are attempting to SEEK GOALS related to the imperative needs of youth. Nothing can be more appropriate. Educators have been concerned about meeting the needs of youth since the first American academy was organized in colonial days. The idea of education for all American youth is to prepare your people for full and useful lives in the American tradition. This is a major purpose for operating our public schools today.

Our work at Worcester has been designed and conducted to meet your needs. We have attempted to meet the common needs of all and the special needs of those with special interests and aptitudes. The total school program has provided opportunities for meeting citizenship responsibilities at home, in school, and in the larger community.

Your success in living useful lives will determine how successfully our program meets the imperative needs of youth!

Goal Seekers of 1962

Preparing for full profitable citizenship or even for the wise budgeting of our talents is a task that we can not do with any degree of success by ourselves. The bulk of our knowledge, customs, practices, and habits are the result of contact with others and the exchange of ideas. We have the schools to make the exchange a smooth economical process.

We do not wish to merely exist. We want more than the mere necessities of life. We try to "reach for the stars" and develop finer interests that will enable us to enjoy the aggregate sum of man's culture. Since we are filled with the wish to live in comfort; to recognize the dignity of the individual; to understand behavior that is not of our immediate environment; to have and hold an aesthetic appreciation of beauty, man made or nature; we became putty in the hands of the more exposed members of the Worcester Family. Our close associations in the Family has prepared us to meet the imperative needs of society.

We are leaving the Worcester Family with an abundance of knowledge and skills obtained from the experienced members of the Family. Let us show our appreciation of the goals instilled in us by the Worcester Family by exemplifying them in our every walk of life.

Class Will

We, the class of 1962, being of reasonably sound mind and memory, do hereby make and publish this our last will and testament.

FACULTY:

1. To the Guidance Office we leave a collection of the bad grades we made during our less serious years.
2. A collection of the alibis and excuses that we tried to get by with.
3. Our sincere thanks for their favors and inspiring us to go forward to success.

JUNIORS:

1. The poise and dignity that they will someday find that they need.
2. Hope that they will take the opportunities that we have lost and keep the resolution that we struggled with, but failed.

SOPHOMORES:

1. The sincerity and interest they will need when they discover that they don't know as much as they think they do.
2. The "tub of hot water" that they'll be in when they discover that they cannot make a good record in one year.

FRESHMEN:

1. An invitation to strive for the highest goals possible.
2. The sorrow of learning that they are no longer spoiled babies, but young ladies and gentlemen.

INDIVIDUAL BEQUESTS

I, Dorothy Bratten, bequeath my personality to Billy Jean Dale.
I, Jane Smith, bequeath my slenderness to Mary Dennis.
I, Betty Dale, bequeath my shorthand ability to Betty Purnell.
I, Telia Fuller, bequeath my height to the Dixon brothers.
I, Matthew Purnell, bequeath my ability to play it cool in all situations to Roger Bridell.
We, Vivian Showell and Irene Harmon, bequeath our ability to defend ourselves to Peggy Harmon.
I, Shirley Dale, bequeath my mathematical ability to Madeline Hardy.
I, Archie Dale, bequeath my walk to Nathaniel Ward.
I, William Davis, bequeath my dignity to Donald Tunnell.
I, Kenneth White, bequeath my ability to play basketball to James Henry who so desperately needs it.
I, Marie Foreman, bequeath my soft delicate voice to Sandra Johnson.
I, Paul Marshall, bequeath my ability in mathematics to my sister, Annie.

Lastly and justly, we hereby appoint the executor of this our last will and testament with full authority to change in time of necessity, the Junior Class.

In witness whereof, we have hereby inscribed our names in the will of Worcester High School, and this thirteenth day of June, in the year of one thousand nine hundred sixty-two.

CLASS OF 1962

Class President's Message

"Keep Climbing"

One poet wrote, "Climb tho' the rocks be rugged; get up if you fall, keep these words before you, 'Labor Conquers' All!"

Seniors, this year marks the culmination of twelve years of climbing. Those past years of ascension have enabled you to attain the glorious privilege of GRADUATION. You are now equipped to proceed to another and more important goal.

The world of turmoil which you are entering will not be an easy one. To attain anything of value, you will have to follow the poet's advice and "Climb tho' rocks may be rugged."

The paths through which life may lead are not promised as easy ones, but all things are conquered through labor. Labor is the key to the success of any endeavor.

A person who climbs, grows, not only in statue, but in mind, spirit, and intelligence. You, the present seniors, have the ability. Attempt to develop it to its fullest capacity. Climb to the highest possible rung of your ladder.

So, senior and fellow classmates, fail not to see the need for your talent in this world, and fail not to climb. It is thus that talent grows fully. Be of use and help to yourself, your race, and your nation. Do not let the fallen rocks deflect you from your chosen course, but to success, in order to climb to the very top.

By Mary Wilson

CLASS POEM

O, Worcester, You have guided us
Safely through this task;
You have a comfort been to us
You've led us in the past.

Now at the peak of tomorrow
In this vast world that is new;
We march us juvenile soldiers
To make tomorrow - praised and true.

Farewell to you, dear Worcester!
We'll think of you each day
For it was you, dear Worcester,
Who helped us on our way.

CLASS MOTTO

"Learn Today, Lead Tomorrow"

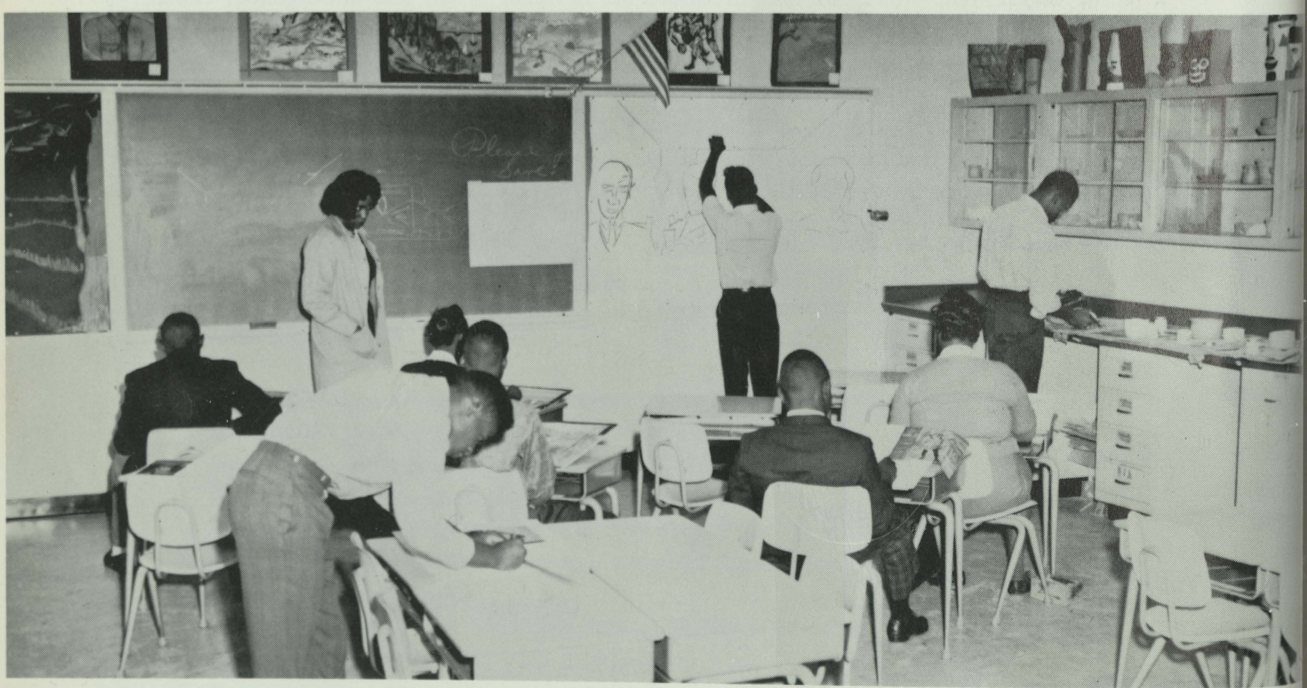
CLASS COLORS

Gold represents the riches we have learned.
Black represents the unknown future.

We Goal Seekers — Sort Aesthetical Appreciation

Man does not limit his activities to the functional demands of existence. Since man's first appearance on earth he has devised numerous techniques to express and transmit his ideas, emotions, hopes and desires through painting, fabrics, drawings, ceramics, and sculptures, and a host of other artifacts. His places of worship are tangible examples of his religious fervor. There are paintings and sculptures that are man's physical expression of his basic drives, urges, and needs. All of these belong to the field of urges, and needs. All of these belong to the field of aesthetic appreciation of art, an integral area that touches our lives at every point.

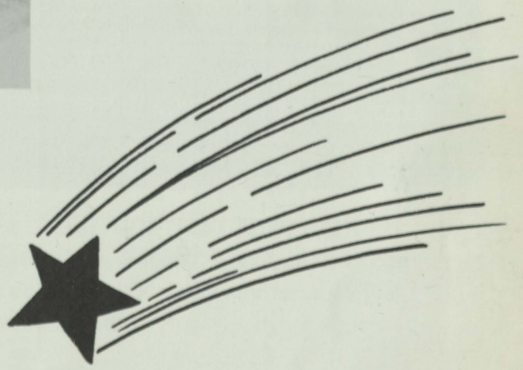
Making art effective in daily living is one of the primary functions of the school. Each member of our society is confronted with the evaluation and selection of many objects, and the pleasure these provide depends to a large degree on how wisely they are chosen. Also, our selections offer possibilities for emotional outlet as well as offering opportunities for enriching our personalities. Human needs are the "beedcocks" of art. A thorough understanding and appreciation of art will make individual and social living richer.



DOWN BEAT

"O'What a Party" we had for 12 years.
"Tossing and Turning" over Mrs. Briddell's, Mr. Brogden's, Mrs. Jackson's, Mrs. Nutter's, and Mr. Vaughn's homework.
We have a "One Track Mind" for our school.
Where are the "Ham Bones" Mrs. Mills and Mrs. Waters?
"Please, Mr. Postman," don't leave that letter from Mr. McDowell.
"Tell me Why" I can not make it with Mrs. Hamilton?
My future is "Going to Work Out Find."
Major, Barbara, Irene is "Packing UP" for short vacations.
"Hit the Road," seniors, and come back for visits.
"A Tear" for the good old days at Worcester.
"It's All Over" for 12 years of free education.
"I Wake Up Crying" on Commencement morning.

We Goal Seekers Sort for Saleable Skills



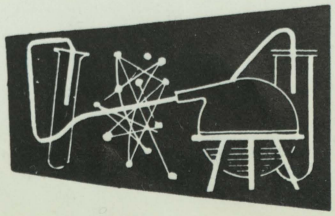
GOAL - SALEABLE SKILLS

Each individual in society must produce at least as much as he consumes and the extent to which he is able to do this depends upon the training he has received. Thus, the demand of parents that education of their children shall equip them to do something in a vocation has always been present. It is not confined to any class in society or to any section of the country. It is a normal demand, usually shared by the students themselves, that at whatever point their education ceases they be qualified to enter some fairly specific employment which is in harmony with the educational level at which they are leaving school.

We Goal Seekers Sort for Scientific Knowledge

GOAL - SCIENTIFIC KNOWLEDGE

The school's program should be an integrated activity that goes toward the development of better and wholesomely composed youth. These youth must be prepared to fit into and help operate this scientific-atomic world of today. The varied techniques of science have improved man's health, removed the fear of the unknown, increased man's life expectancy, and multiplied the product of his factories. However, man's manipulation of his scientific knowledge has provided him with instruments of destruction that may result in his own destruction. This need not be an indictment of science or man's use of science, but a challenge to devise techniques of control that will result in the eradication of hunger, filth, sickness, and ignorance.



We Goal Seekers Sort for Worthy Use of Time

The school is not totally responsible for the realization of the GOAL, WORTHY USE OF LEISURE TIME. The school is only one of the educative agencies. All institutions, forces, agencies, and contacts have something to offer. New experiences and knowledges can be provided by any force in the community, but the school should provide the leadership, and the facilities.

MR. WHARTON
Instructor

We Goal Seekers Sort for Rational Thinking

Realization of the GOAL, RATIONAL THINKING, prepares the young adult of the Worcester Family to take his place in our democratic society. Accompanying skill in RATIONAL THINKING is the youth's power in arriving at conclusions following objective study. Also, it is quite generally accepted that the ultimate GOAL of education is to develop behavior patterns that are acceptable to our social order. Readily acceptable has been the knowledge that mere understanding of what is considered right and wrong does not predetermine good conduct. The true evaluation of mastery of the GOAL, RATIONAL THINKING, is behavior pattern acceptable to our culture.

Mrs. Downing, Supervisor of Instruction, is discussing with Mary and Paul their life's GOAL of becoming a nurse and an engineer.

THE ATOMIC BOMB CAN WAIT

As powerful as the atomic bomb is, if it were to land,
I do believe that it would remain in mid-air until:

BARBARA ANDERSON - stopped being such a brat.
NORMA COSTEN - Lost some of her petiteness.
PEARL PURNELL - Forgot her musical ability.
MARIE FORMAN - Stopped grinning so much because there isn't a dentist at Worcester High.
VIOLA LENONARD - Stopped being so argumentive.
SHIRLEY DALE and SHIRLEY BROUGHTON - Lost some of their fresh ability.
VIVIAN SHOWELL - Stopped being such a clown.
DORIS BLAKE - Stopped trying to look so tall.
BETTY GARDNER - Stopped dieting (She isn't a bit overweight)
KENNETH WHITE - Stopped walking the floor.
TELIA FULLER - Stopped being so silly.
MATTHEW PURNELL - Started getting to school on time.
PAUL DENNIS - Stopped looking so far out into space, when he walks.
TEDDY STANSBURY - Started buying pencils instead of borrowing.
MARY WILSON - Started being late for classes.
DESSIE ROGERS - Stopped being so bashful.
PATSY POULSON - Stopped wearing so many straight clothes.
JANE SMITH - Stopped wearing so many tight skirts this year.
BETTY DALE - Started gaining weight. (A pound at least)
IRENE HARMON - Started getting along with teachers.
BETTY HARMON - Forgot one of her crazy hair styles.
WILLIAM DAVIS - Observed punctuality.

Class History

Many field trips were made by us to represent the school. Telia and Ernest accompanied Mr. H. L. Curry to the United Nations; while Kenneth represented our school at the Future Teachers of America meeting held at Silver Springs, Maryland. Mary Wilson and Mary Jane Smith attended the Annual High School Day Conference held at State Teachers College at Bowie, Maryland. Johnnie Selby held us up on the track team at the Somerset High in Princess Anne, Maryland. Employed by the Salisbury Times Newspaper was Bronal Hayes. Her duties included working the IBM and filing. Norma Custon and Peggy Showeel were elected to the National Honor Society. At the State Meeting of the Farmers of America, Riley Allen was elected State Historian. What a full year!

Now in the dawn of the early months the apex of our public education, we stand on the threshold of a new life. Our plans for activities this year are somewhat limited because we are placing more stress on academic achievement. Our officers for the year are President Mary Wilson, Vice President Telia Fuller, Secretary Shirley Dale, Corresponding Secretary Paul Dennis, Treasurer Paul Marshall.

Now we are closing the last chapter of our public education at Worcester High. We are leaving behind many pleasant associations to be remembered and taking with us, all of the aspiration, faith, high morals and ideals taught us by our loved ones, parents, and teachers, as we journey into new frontiers of tomorrow.

The End of

The Class of 1962

Remember Me as the one
Who You Couldn't Beat
in Pool.

Clarence Franklin

Donald Temple
12A-D
Is a cool cool cat from
Bremerton City Md.

Andrew Taylor

Always remember the
day that we had a
Indian wrestling. I won

Russell

Remember in the 1st grade
when Bob Bob & I were the
only ones who could under-
stand your fine language.
Always a friend & classmate
Ernest L. Bishop
